10 – Status line

12 – Button interface control

13 – Checkbox interface controls

14 – Listbox interface control

16 – Image under inspection

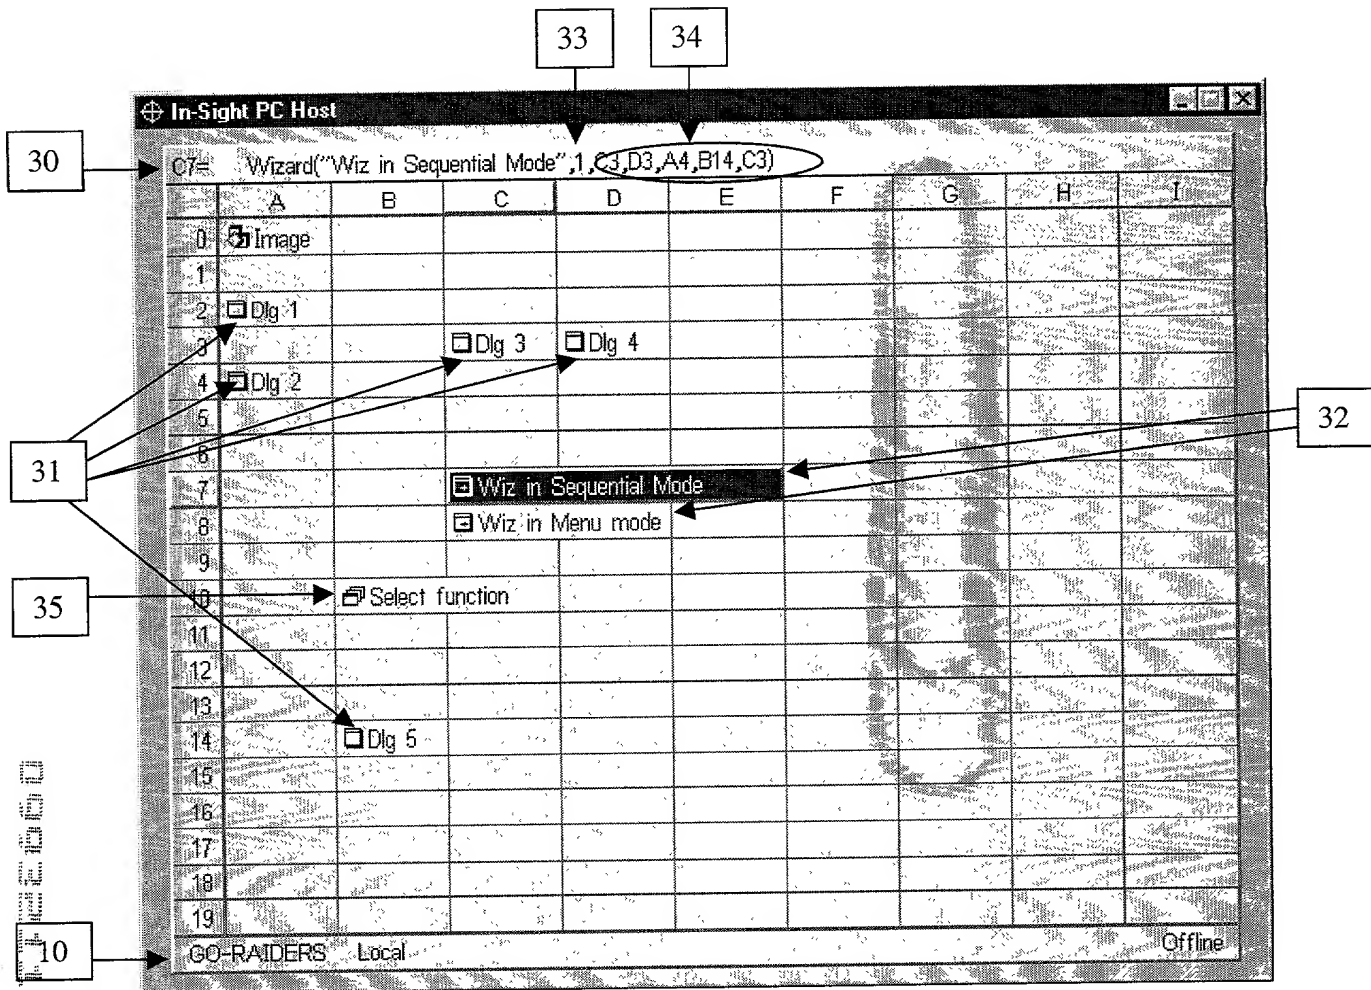

Figure 3

10 – Status line

30 – Expression line for the *Wizard* function in cell C7

31 – *Dialog* functions

32 – *Wizard* functions

33 – Mode of presentation

34 – Set of *Dialog* functions

35 – *Select* function

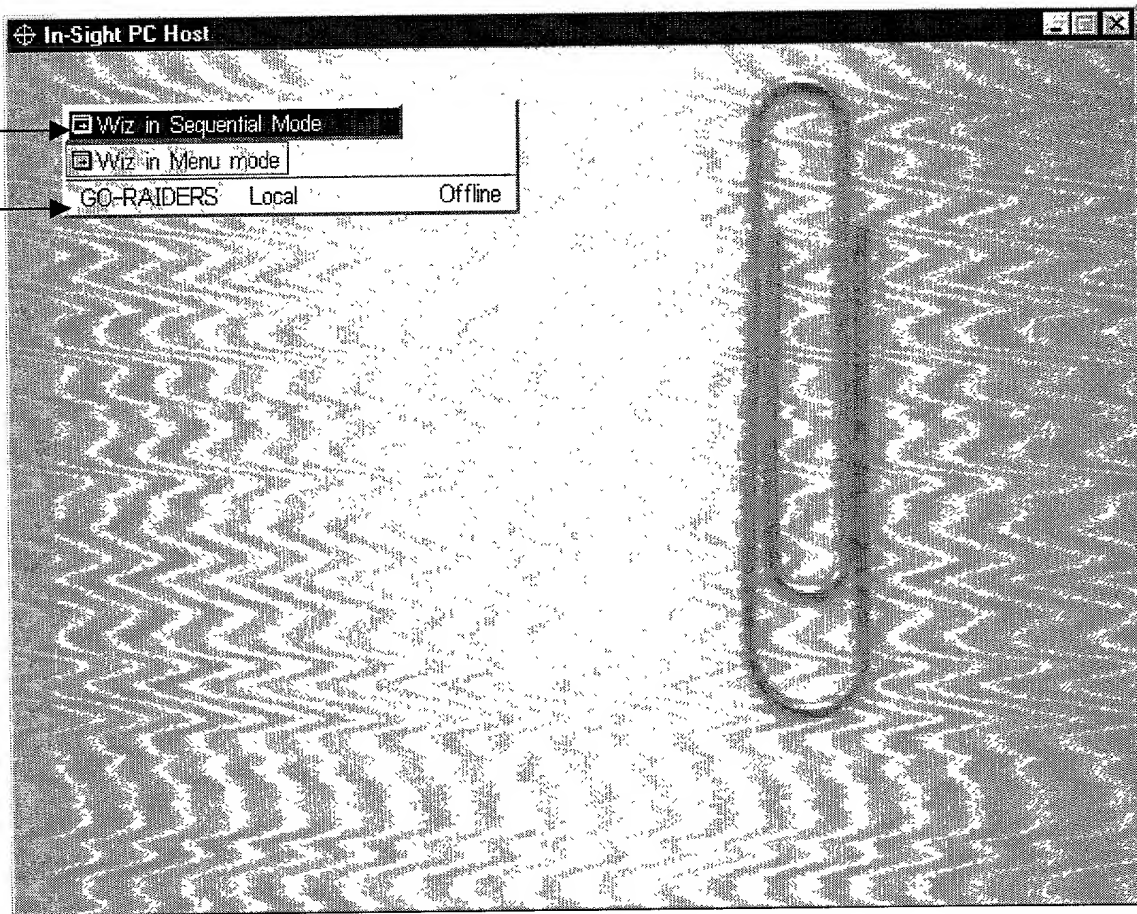

Figure 4

10 – Status line

32 – Wizard functions

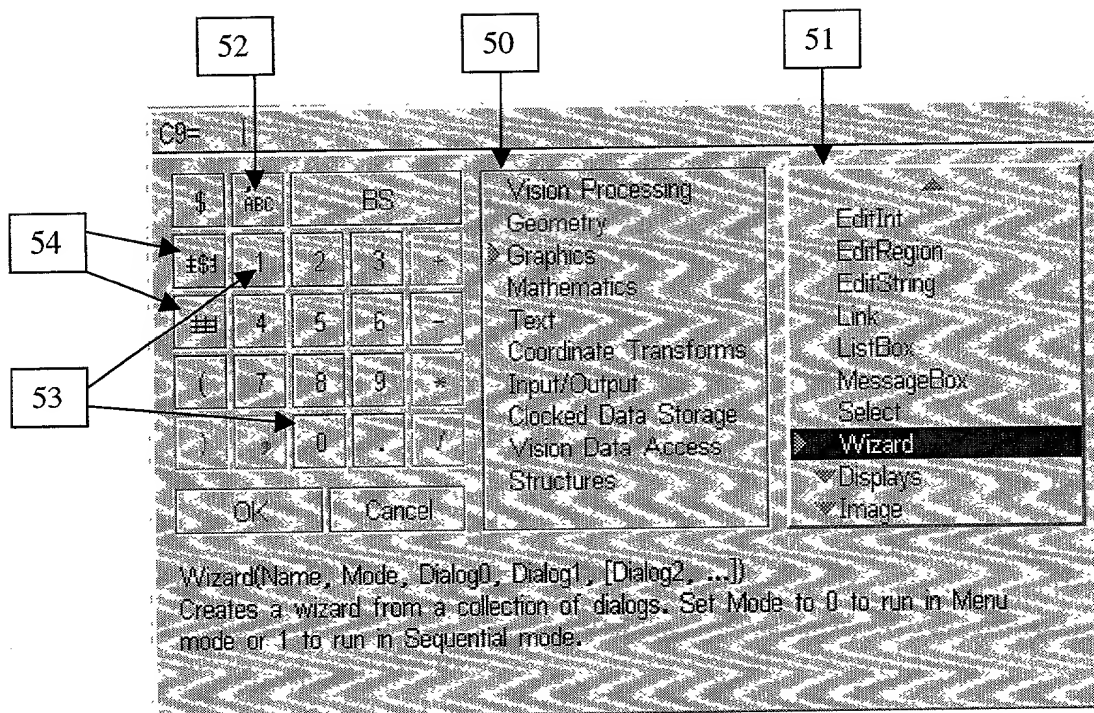

Figure 5

50 – Function category list

51 – Function list

52 – Text entry

53 – Number pad

54 – Reference mode

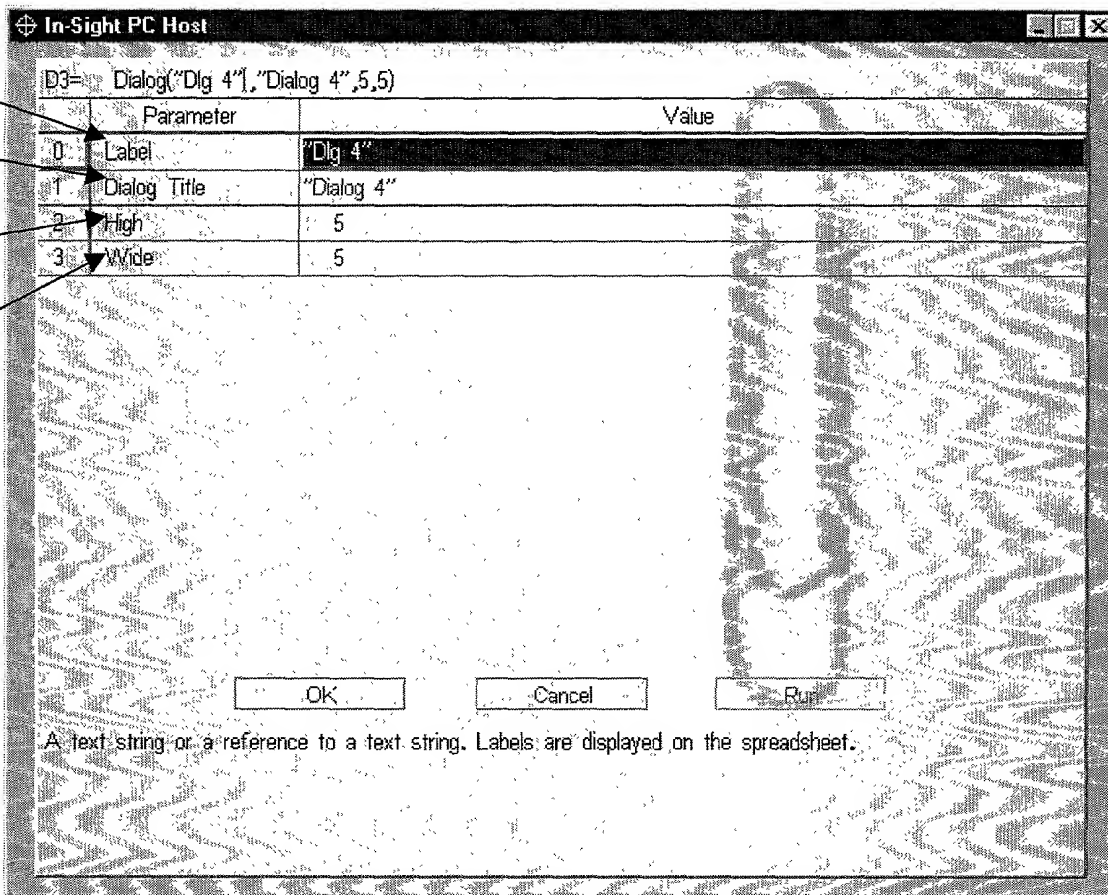

Figure 6

60 – The name of the *Dialog* function as it will appear in the spreadsheet next to the *Dialog* button

61 – The name that will appear in the dialog's title bar

62 – Display height of the *Dialog*

63 – Display width of the *Dialog*

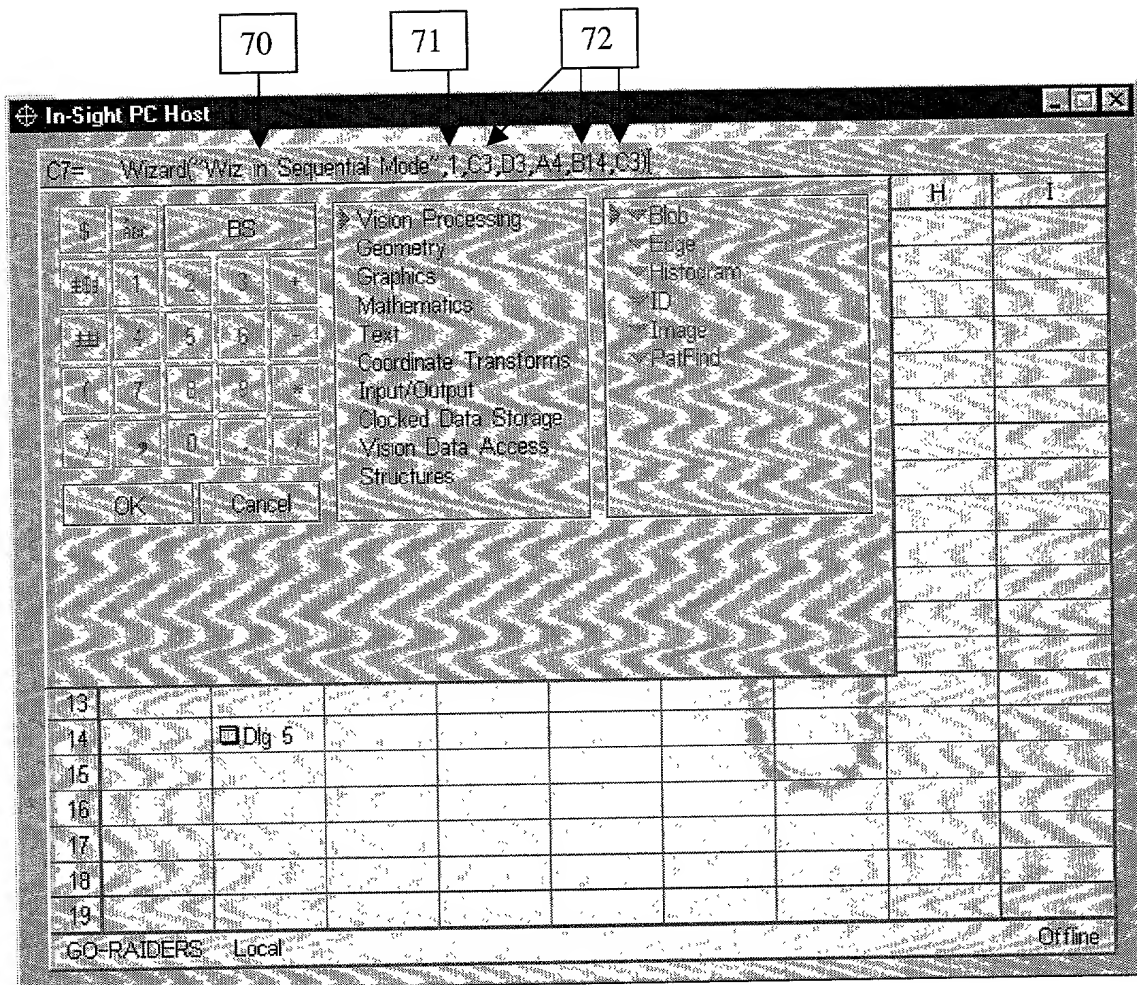

Figure 7

70 – The name of the *Wizard* as it will appear in the spreadsheet

71 – Specifies whether the *Wizard* opens dialogs in sequential or in menu mode

72 – Set of *Dialog* cells to include

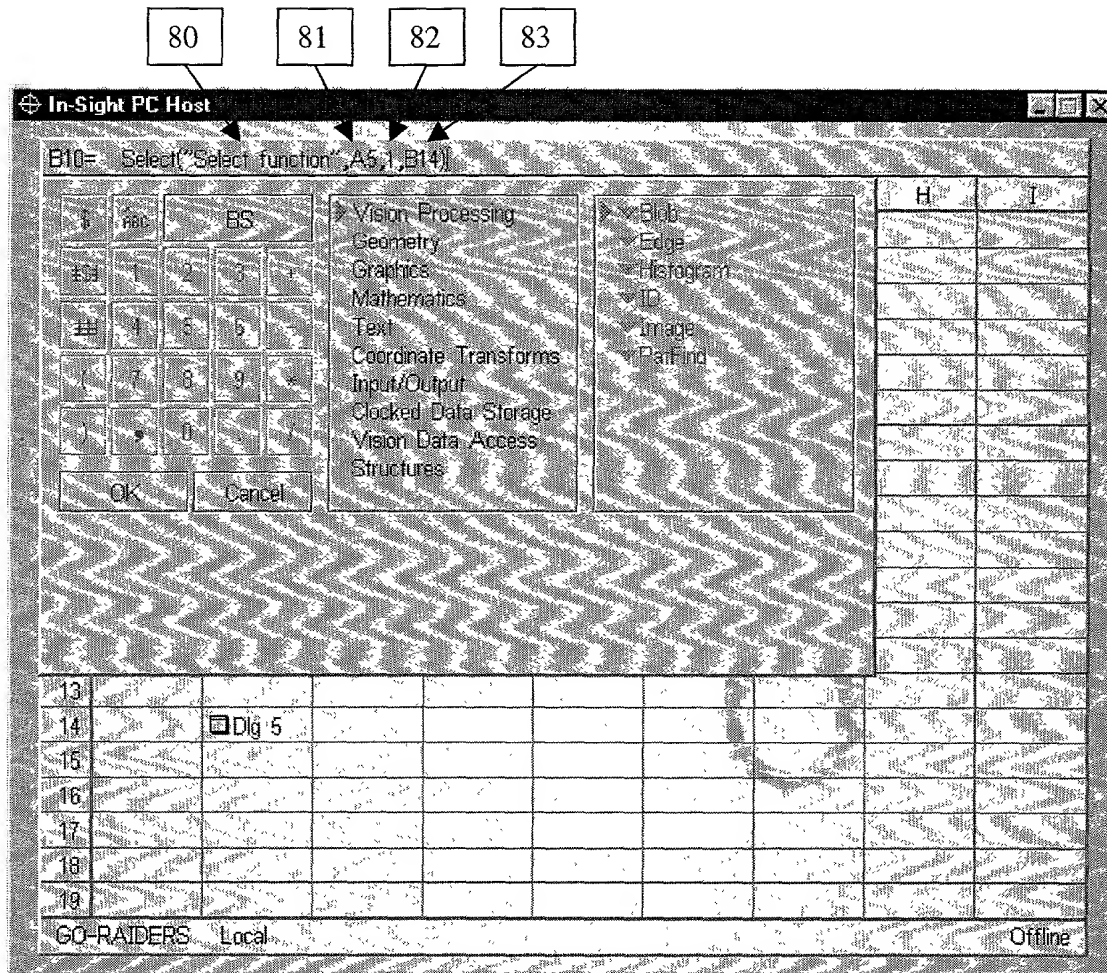

Figure 8

80 – The name of the Select function as it will appear in the spreadsheet next to the Select button

81 – Specifies the position number of the Control to execute from the variable list of cell references

82 – Specifies whether the Select function can execute automatically

83 – The variable list of references to spreadsheet cells, which must contain a *Dialog*, *Wizard*, *Link*, or *Select* function.
